

5 WAYS DNA-C CAN SOLVE YOUR BUSINESS CHALLENGES

OPTIMISED EXPERIENCE

Faster troubleshooting, minimised downtime and a better user experience with a single dashboard providing granular networkwide views.

1.

2.

EMBEDED SECURITY

Instantly detect day-zero malware and find threats even in encrypted traffic with continuous monitoring, compliance and network security analytics.

AUTOMATED PROVISIONING

Save time, money and headaches by automating adds, changes, policy provisioning, upgrades and enjoy the ability deploy new devices in minutes.

3.

4.

SIMPLIFIED OPERATIONS

What used to take days can now be done in minutes with the ability to deploy capabilities faster than ever before.

CENTRALISED POLICY

Enable highly secure access in just a few clicks. Define, configure, enforce, and update policies across your campus, WAN, data centre, and multicloud networks.

5.
