

# SECURITY TRIAL MENU

## SIMPLIFY YOUR SECURITY

No matter where you are on your security journey, there's a solution for you.

The best part is you can try it for free and learn alongside the experts.

Contact the Natilik security team to enable a trial and find out more.

### Advanced Malware Protection for Endpoints

Do you have visibility into the files and processes running on your endpoints? If a malicious file is downloaded and executed, are you able to track its history and actions? Take the next step past traditional AV with next-generation endpoint security.

GO!

### Stealthwatch - Security Visibility Assessment

Is your network compromised today? How do you know? Take a two-week Security Visibility assessment to identify risky network behavior such as trac to high-risk countries, remote access breaches, and telnet usage.

GO!

### Email Security with AMP

Protect against phishing, business email compromise, and spam with Cisco Email Security. Provides an additional layer of protection for Oce 365 users.

GO!

### Duo Multi-Factor Authentication

Proactively reduce the risk of a data breach with Duo Multi-Factor Authentication. Verify users' identities, gain visibility into every device, and enforce adaptive policies to secure access to every application. Start a free, 30-day trial and start securing users in minutes.

GO!

### Next Generation Firewall - Health Check

Are you using yesterday's firewalls to protect against today's attacks? Sign up for a Network Security Health Check to ensure your network is healthy and safe from cyber-attacks.

GO!

### Stealthwatch Cloud - Free Trial

Easily identify threats in your public cloud infrastructure and private network - from a single screen. Stealthwatch Cloud provides visibility and threat detection in Amazon Web Services, Google Cloud Platform and Microsoft Azure.

GO!

### Cloudlock - Security Assessment

Can your on-premise security protect cloud apps? Cisco Cloudlock quickly and easily helps protect your users, data and apps in the cloud against compromised accounts, data breaches and malware.

GO!

### Umbrella - Free Trial

Do you want to reduce malware and make limited staff more efficient? Cisco Umbrella deploys in less than 30 minutes to help you identify and investigate threats faster, and protect users from threats on the internet, everywhere they go.

GO!

### Cyber Deception Service

Natilik's cyber deception service helps cover your entire system environment with adaptive deceptions. It is a featherweight, automated solution to inhibit the ability of attackers to move through your network and stop them before they can reach critical assets.

GO!

### AnyConnect- Free Trial

Allow your users to securely access your company network from any device. AnyConnect simplifies secure access to any endpoint and provides the necessary security to keep your business protected.

GO!

### Identity Services Engine - PoV

Increase visibility, control access and contain threats with a security policy management platform that automates and enforces context-aware security access to network resources. ISE delivers superior user and device visibility to support enterprise mobility and access.
