

PROTECT TODAY AGAINST THE THREATS OF TOMORROW

F5 SECURITY SOLUTIONS

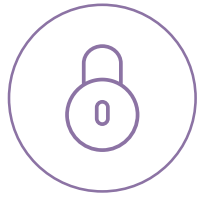

The need to keep business data secure has never been greater and the consequences of security breaches are becoming graver as hackers and malware become more sophisticated and harder to detect.

The surge in applications, remote working and cloud-based services provide hackers with ever more and ever faster routes to sensitive business data.

58%

increasing attack sophistication

52%

employees underestimate importance

37%

data leakage from personal devices accessing apps in the cloud

F5 HELPS YOU UNDERSTAND THE RISKS THAT THREATEN YOUR BUSINESS AND GIVE YOU INSIDE INTELLIGENCE TO KEEP YOUR ENEMIES CLOSE - AND STAY ONE STEP AHEAD.

CUSTOMER CHALLENGES

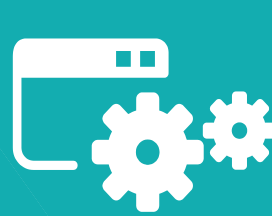

COMPLIANCE

Compliance requirements are constantly growing as cyber-attacks become more evasive and sophisticated.

DATA BREACHES AND PRIVACY

Private data and data breaches are often more damaging than expected – often a business’s reputation is put at stake.

PERFORMANCE AND EFFICIENCY

Operational efficiency and productivity is often impacted when trying to recover from a cyber-attack. The need to future proof security solutions is essential.

THE SOLUTION

DDOS PROTECTION

Flexible hybrid and cloud based protection and 24/7 365 day support gives transparency and visibility to all relevant threats. All coupled with a wide global coverage and access to the world's foremost DDoS experts.

WAF SOLUTIONS

Self or externally managed solutions under a comprehensive Layer 7 protection that can be moulded to suit your requirements. All deployments are flexible and across a hybrid environment, enabling compliance based on different industry standards.

SSL TRAFFIC MANAGEMENT

Enforcement of consistent SSL policy based on best practice and compliance standards that gives visibility over SSL traffic with load balancing solutions to manage performance. Deployment options throughout physical, virtual and cloud environments and a dynamic chaining of security services that efficiently manage security.

WHY F5?

COHESIVE SOLUTIONS

Comprehensive security solutions that work together to deliver tailored protection services.

COMPETITIVE PRICING

F5 offer their services at a price to performance ratio relative to their competitors.

FAST RESPONSE

When you stay close to hackers and threats you can ensure that your services are ready to respond, and F5 have the capabilities to work against any cyber-attacks their clients experience.

WHY NATILIK?

Our security specialists are able to assist in reviewing your current environment against today's threat landscape in order to understand your short and long-term needs.

We can showcase the technology, workshop your requirements and propose a solution based on meeting your desired outcomes.

London HQ and offices in Sydney and New York with 24/7 follow the sun support team which provide a consistent experience globally.
