CISCO SMART ACCOUNTS

GAIN ENTERPRISE-WIDE VISIBILITY INTO YOUR CISCO SOFTWARE LICENSING

CISCO SMART ACCOUNTS ARE A NEW WAY TO MANAGE YOUR SOFTWARE LICENSES, ALLOWING YOU TO SAVE TIME AND PROVIDING YOU WITH A CENTRAL LOCATION WHERE YOU CAN MANAGE ALL YOUR LICENSES AND ENTITLEMENTS ACROSS THE ENTIRE ORGANISATION.

Smart Accounts allow you to store, manage and move assets from one place to another and begin to use them immediately. Smart Accounts apply to both traditional product activation key licences (PAKs), the new Smart Software licences and for Enterprise Agreements.

After you set up a Smart Account, you have the flexibility to create sub accounts (Virtual Accounts) to help manage your licenses for departments, areas, or locations within your organisation. Smart Accounts have role-based user access controls, which allow the delegation of authority to account administrators at the Smart Account level or at the Virtual Account level. In addition, you can manage partner visibility and management rights to your virtual or enterprise-level accounts.

WHY USE CISCO SMART ACCOUNTS

SIMPLE - Set up one Smart Account to manage all your software licences and entitlements across your organisation.

CENTRALISED - A single location gives authorised users the ability to view licences entitlements and usage company-wide instead of through individual access.

ORGANISED - Sub-accounts (Virtual Accounts) offer flexibility, the ability to easily manage access and roles in group licences

POOLED - Pooled entitlements which enable use with any compatible device.

USAGE VISIBILITY - Quickly search for unused licences and deploy them when and where they are needed. This avoids operational downtime and can help reduce unnecessary licence purchases.

SELF-SERVE - Complete licensing transactions that reduce the need for calls to Cisco Licensing Support, saving time and reducing delays.

I'M INTERESTED - WHAT NOW?

Use the Cisco Software Central portal to create a Smart Account for your organisation and to access the licence portals for traditional PAKs, Smart Licences & Enterprise Agreements: https://software.cisco.com.

Alternatively contact your Natilik Account Director or Service Delivery Manager for assistance with your Smart Account setup.

HOW NATILIK CAN HELP

Enable Natilik access at enterprise or virtual account level to allow us to better assist with any queries, issues or for licence deployment during implementations.

Share your Smart Account domain with Natilik to allow PAKs and Smart Licences to be automatically assigned to your Smart Account. This is essential for Smart Licences.

For more information, please contact the Natilik team on 0203 597 8000 or visit www.natilik.com/contact-us.
